It was good

Well discussed

It was a very good experience. And a hands on experience of how to handle and operate Fermenter

Learnt the basics and etiquettes of a lab researcher n how the fermentation works

Learned operating of lab scale fermenter

### 8. Comments regarding operating procedure of pilot scale fermenter

25 responses

Operated fermenter in a systematic manner and was interesting

Fermenter is in good condition and slightly complex to operate but still we can operate it

It is very helpful for learning

Everything fine

We have to relate the operating conditions with lab scale Fermenter to make it simple because pilot scale is more of automated, and we can also provide all the required conditions here.

Pilot scale fermenter basics and all regarding operations and calculations was clearly taught.

Sufficient information on operating the pilot scale fermenter

### 9. Any comments/suggestion for improvement

28 responses

Good

Good experience

This workshop was very helpful to learn about fermentation.

Nothing as such... Would like to have more workshops if possible.

Workshop days should be extended

No comments

No improvement all is perfect..

It is very hectic schedule because time is short

No much of improvements required, it'll be great if they continue the same.

Schedule should be properly followed

### 10. Comments on course instructor (Sharanappa A.) in giving the over all experience on fermentation process.

24 responses

Sir patiently cleared our doubts and explained the concepts. The workshop was organized well

Every minute thing was been tried to explain and made to understanding regarding fermentation, kinetics and other SOPs and Operations.

Instructions was given clearly, instructor was too good and explained every step in a understandable manner.

Very nice and polite person  
Explained everything very neatly  
Given hands on experience for all  
All SOP's were followed neatly and hands on experience was given
