Internship Completion Certificate

This is to certify that **Mr. Narake Shivtej Ajitkumar** has carried out an internship starting from **10th January 2022** to **31st May, 2022** at Opsverse India Pvt. Ltd, Bangalore.

He worked on a project titled “**Observability Integration of Elasticsearch and ElasticCache for ObserveNow**” under the guidance of **Mr. Vinaya Kumar Thimmappa**. This project helped us to enable a feature of observability into applications using Elasticsearch and ElasticCache through our product **ObserveNow** which provides full-stack observability into any infrastructure.

During this internship, he displayed good technical skills and was able to fulfill the expected acceptance criteria for the project and training.

We appreciate his valuable contributions and wish him success.

Yours faithfully,

For **Opsverse India Private Limited**

To Whomsoever It May Concern

I am pleased to confirm Aman Khan N Athani, of 8th semester bearing USN 01fe18bcs028 from School of Computer Science and Engineering - KLE Technological University, Hubballi, worked with me as an intern from 10th January, 2022 to 31st July, 2022.

He contributed towards the research project titled "Exploring Instruction Criticality Models to Guide Microarchitectural Optimizations", at the Department of Computer Science and Engineering at the Indian Institute of Technology Dharwad. The aim of the project was to study the efficacy of different instruction criticality models, which would guide processor architects to develop better criticality-based optimizations.

Aman's work was satisfactory. He picked up the necessary background knowledge, and then learnt to work with a processor simulator (Tejas) to conduct various experiments. Aman showed sincerity and earnestness in completing the tasks given to him.

Please feel free to contact me for any further queries you may have.

Thanking You,

Dr. Rajshekar K

Internship Completion Certificate

Name of the Intern: Janvi Ladhani

Start Date: 10-01-2022

This is to certify that Janvi who is currently working as an intern, has completed the requirements of the internship program that was set up by Bridge for training them. They completed hands on training as well as On-The-Job Training during this tenure. The internship program is divided into two parts: - The first part of the program was basically training period covering both technical and non-technical aspects. – The training period was further sub-divided into two, wherein, initially the interns were trained for all the necessary technical skills (Java, XML/JSON, Webservices, RDBMS etc.) while the other half covered the technical and functional aspects of IBM Sterling Selling and Fulfillment Suite.

Following are the modules for which Janvi underwent training and assessed:

- o Participant setup
- o Process modelling
- o SDF
- o Event listeners and handlers
- o Agent framework
- o Customizations & extensions

The second part of the internship program was the period wherein the intern is allocated to a real-time project and the learning is basically on-the-job.

During the second part of the program, Janvi learnt about various functional aspects of Warehouse Management/Order Management System/B2B Fulfillment Services which is also part of IBM SSFS/Fluent OMS product suite

Janvi learnt about order capture and the fulfillment flow for the same.

Janvi is involved in the "OMS Implementation" for a large client based out of US, in the retail domain under which they were also trained on a different IP (meant for monitoring and observing transactions, APIs, Services and Agents) that was built in-house. As part of their training and assessment, she also contributed towards few extensions of the IP and applications based on customer's requirements.

About the company:

Bridge Solutions Group (Pivotree company) was founded based on a desire to build a better breed of consulting services and software partner – one that provides real value and true partnership. Our strategy? Assemble a team of top industry resources dedicated to excellence. We are proud to have a 100% implementation success rate. Headquartered in Fort Lee, NJ, Bridge Solutions Group implements the highest quality omni-channel and supply chain technology solutions from the world's most respected and reliable brands. Our teams are committed to delivering agile and dynamic solutions with the dedication and attention of a trusted partner.

As an IBM and Fluent Business Partner, our comprehensive services offering includes:

- Omni-channel strategy
- Project and program management
- Fulfillment strategy
- Custom application development

Pivotree Solutions India Private Limited
(A wholly owned subsidiary of Pivotree Inc.)
CIN: U72200KA2014FTC072985

Corporate Office: #244, Fortune Summit Business Park, 1st Floor, HSR 6th Sector, Hosur Road, Bangalore 560068

- Solution design and implementation
- Business process consulting
- Managed services
- Cloud hosting services

Our product expertise includes:

- IBM Sterling Order Management System
- Aspera
- IBM Sterling Warehouse Management System
- IBM ILOG
- Pitney-Bowes Parcel Solution
- IBM Sterling File Gateway
- ProShip Parcel Solution
- IBM Sterling Connect:Direct
- Fluent Commerce

Why expand your partnership with Bridge Solutions Group? In addition to our deep supply chain strategy and product knowledge and experience, we have the resources to deliver a complete managed services solution.

We have a set of IPs that have allowed us to leverage our expertise in areas of Warehouse Management and Order Management Applications. These IP viz Yantra WMS, Yantra Connect, Yantra Control Tower and Yantra Mobile use microservices based architecture to bring together the best of breed in terms of technology and cloud native solutions.

We can provide your company with a customized level of services, support and training that fits your resources and requirements. Whether we are augmenting your internal team or managing all processes, our consultants can help you to ensure a solid ROI by delivering the following services and solutions:

- **Product Engineering Services** can provide you with core engineering services to design and implement your products.
- **Consulting Services** can provide you with a range of services including program and project management, strategic planning, process optimization/redesign, software implementation, technical solution fine-tuning, post-implementation support and more.
- **Cloud Services** can help your company achieve rapid deployment, reduce IT infrastructure investments, eliminate risk and improve total cost of ownership.
- **Support Services** can provide your team with 24/7 global phone, email and Internet support; self-service for managing and reporting cases; searchable solution knowledgebase; online user community; new software releases and updates and more.

Pivotree Solutions India Private Limited
(A wholly owned subsidiary of Pivotree Inc.)
CIN: U72200KA2014FTC072985

Corporate Office: #244, Fortune Summit Business Park, 1st Floor, HSR 6th Sector, Hosur Road, Bangalore 560068

- **Education Services** offers your users results-oriented education and business offerings, including e-learning; multimodal process and solution training; role-based certification tracks; benchmarking surveys; and best practice information.
- **Environment Management** will include activities like installing new production hot fixes, building a new Sterling EAR, deploying the new EAR, doing a hot deployment, restarting app and agent servers, and other Sterling application management items.
- **Proactive Service Monitoring** to ensure optimal application performance and availability, Bridge proactively monitors issues on our internal network that may affect your business. This is an ongoing service to uncover potential performance, availability and configuration risks, and keeps you informed of issues and provides recommendations for addressing them. This is done over weekly steering calls.
- **Additional Services** like DB tuning, purging old data, performance tuning, log analysis, etc.
- **QA Services** will include activities like preparation of testing strategy, testing plans and executing them to ensure that solution is working as per the business requirements.

To deliver this complete solution we employ the industry's most experienced team motivated to exceed your company's expectations. Our goal is to be your long-term partner that provides the resources and expertise to address your requirements in a timely manner while minimizing disruptions to your business.

Yours truly,

Mahesh K Nair (Mahesh.nair@pivotree.com)

Internship Completion Certificate

Name of the Intern: Komal Lonakar

Start Date: 10-01-2022

This is to certify that Komal who is currently working as an intern, has completed the requirements of the internship program that was set up by Bridge for training them. They completed hands on training as well as On-The-Job Training during this tenure. The internship program is divided into two parts: - The first part of the program was basically training period covering both technical and non-technical aspects. – The training period was further sub-divided into two, wherein, initially the interns were trained for all the necessary technical skills (Java, XML/JSON, Webservices, RDBMS etc.) while the other half covered the technical and functional aspects of IBM Sterling Selling and Fulfillment Suite.

Following are the modules for which Komal underwent training and assessed:

- o Participant setup
- o Process modelling
- o SDF
- o Event listeners and handlers
- o Agent framework
- o Customizations & extensions

The second part of the internship program was the period wherein the intern is allocated to a real-time project and the learning is basically on-the-job.

During the second part of the program, Komal learnt about various functional aspects of Warehouse Management/Order Management System/B2B Fulfillment Services which is also part of IBM SSFS/Fluent OMS product suite

Komal learnt about order capture and the fulfillment flow for the same.

Komal is involved in the "OMS Implementation" for a large client based out of US, in the retail domain under which they were also trained on a different IP (meant for monitoring and observing transactions, APIs, Services and Agents) that was built in-house. As part of their training and assessment, she also contributed towards few extensions of the IP and applications based on customer's requirements.

CERTIFICATE OF INTERNSHIP

To Whom It May Concern:

This is to certify that **Neha J. Deshpande** (Computer Science Engineering, KLE Technological University, Hubballi) has successfully completed a 4 months internship at Spookfish Innovations in January to May 2022.

The internship involved work in close collaboration with the core development team to carry out research and development related to computer vision and image processing. The work involved understanding and implementing various methods from research papers, and finding ways to improve on existing technology to address challenging cases.

In particular, the projects that the internship spanned include:

- Training and testing of deep learning based modules for detection of tablets/capsules on blisters.

Neha's contribution has played a vital role towards the realisation of the above technologies and their inclusion in Spookfish's core libraries.

We wish Neha good luck in all future endeavours and look forward to working with her again in the future.
