KLE Technological University (KLE Tech)

B.V. Bhoomaraddi (BVB) College of Engineering and Technology was established in the year 1947 with the aspiration of creating an institution that would lay the foundation of modern engineering education in the northern region of Karnataka. BVB with a legacy of seven decades matured into KLE Technological University, Hubballi. At this juncture of rapid technological advancements and pedagogical interventions, the University is playing a transformational role in engineering education in India which is being recognized and appreciated by the world at large. In addition, being responsible, the University is taking leadership roles in building a regional development ecosystem and promoting a culture of innovation and entrepreneurship for the societal cause.

SCHOOL OF MANAGEMENT STUDIES AND RESEARCH (SMSR)

SMSR is the management wing of the KLE Technological University, Hubballi, started in 2008. The main focus of the School is student-centric experiential learning. It has an excellent network of local and outside organizations leading to students learning and placement. SMSR is impacting society through different avenues. The team SMSR is a blend of experience in both industry and academia. All the faculty members are with Ph.D. qualifications and are engaged in teaching, learning, and research. The infrastructure and ambience of SMSR are conducive to students' learning. Hard work, Discipline, and Punctuality are visible features under the umbrella of values, ethics, and culture of the school and society. SMSR's focus is on training students in the Art and Science of managing a business. The alumni network supports SMSR in its various initiatives including placements.

Operation Quest

At the School of Management Studies and Research, KLEU, we believe in innovation, leadership, and experiential learning. Our MBA students undergo rigorous training to gain confidence and expertise in operations management. This year, our students have taken the initiative to organize an operations management fest to showcase their skills. The main objective of Operations Quest is to help budding operations managers enhance their operations management skills. Operations management is more than just about efficiency. It is also about creating value and ensuring that a company's operations are aligned with its strategic goals. After all, operations management helps you understand the true meaning of value, the value of a product, and the value of a person. Operations Quest will feature a variety of events that will challenge and inspire participants. These events will cover a wide range of operations management topics, from supply chain management to lean manufacturing. We invite all budding operations managers to participate in Operations Quest and take their operations management skills to the next level.

Pre Event Activities Details

- Component 1 :**
Students group should visit a fast-food restaurant /Retail Store /Furniture Store /Car Dealers to understand the perspective of operations management and gather information for the following questions:
 - Identify the products Procurement process.
 - Find out utilization of resources, namely manpower, capacity, and material.
 - Assess the customer service rendering process and feedback system.
- Component 2:**
Students gather information related to material handling in the respective production and services chosen: [should include]
 - Identification of material handling procedures.
 - Types of material handling equipment used for production and services.
 - Evaluation of the utilization of material handling equipment.
- Component 3:**
Students group to collect information on the material requirement plan and purchase procedures for raw materials, including:
 - Material requirement plan for procurements of raw materials.
 - Details of the purchase procedures adopted.
 - Preparation of the bill of material. (BOM)
 - Supplier or vendor selection process.
 - Management of in-process inventory and spares.
- Component 4:**
Students group should gather information about the steps involved providing service (method study), the cycle time involved (standard time calculation)

Instructions :

- The group should prepare all the above mentioned components in any organisation of their choice, prior coming to competition
- Presentation by Students on their respective service organization's operations management, incorporating the four components: Each group presents their analysis and findings based on the components results, along with recommendations for improvements.

Rules and Regulations

- Each team should contain a group of 3 people
- Necessary permission should be obtained by the respective team and organizers are not responsible for any breach of data.
- Participation of all members is mandatory.
- Power point presentation should have a maximum of 10 slides
- Presentation will be of 15 min and Q&A of 5 min
