

Letter of Invitation

To

Global Capstone Design Fair

October 11th, 2019

Dear Prof. Rakesh P. Tapaskar,

I would like to invite you to E² Festa 2019 (Engineering Education Festival 2019) held on Nov. 26th and 27th at Songdo Convensiaer in Sondo city, which is the largest festival of engineering community in Korea. You can see the overall view of programs at <http://www.e2festa.kr/> after October 22nd

Capstone Design Fair is one of main programs of E² Festa 2019, where over 170 outstanding capstone design works from around 80 Korean universities will be shown in the exhibition. In particular, Global Capstone Design Fair (GCDF) will be held in parallel with domestic Capstone Design Fair, where foreign universities' works of excellence are invited for sharing mutual experience of capstone design and boosting further collaboration for globalization of engineering education. Also you can enjoy many other programs too.

I believe you have been discussing with your Seoul Tech Hub ICEE on how many teams and students will be coming and what kinds of support will be provided. If you or your student plan to stay longer than the official period or additional participants want to come to the E² Festa 2019, please send us a prior notice for arrangement of their accommodation but additional expenses arising therefrom should be paid by your budget.

I hope that E² Festa 2019 will be a meaningful and exciting event to you and your students.

Prof. Wonjong Joo, Organizer of GCDF

Prof. Dongsik Jang, President
