115.PUPA 2017

Details of the Program/Report:

PUPA is an accelerated entrepreneurial experience for students. PUPA 2017 saw the biggest number of registrations and exhibiting participants since its inception in 2013. It all started with a suggestion made by an industrialist back in 2013 to connect students' intellectual ability to monetization. PUPA, as the name suggests, is a transient state where in student teams garner key resources and turn out products just like a beautiful and lively Butterfly over 4 weeks.

Being held since last five years, PUPA has generated keen attention from institutions all over the state of Karnataka. PUPA 2017 saw over 280 products being made, demonstrated and sold by students from High school, Commerce, Medical and Engineering streams. It's been a platform that has helped participants put their best foot forward in exhibiting their entrepreneurial talent.

Having attracted participants from multidisciplinary streams; PUPA has helped budding entrepreneurs hone their technical, marketing and entrepreneurial skills.

Participants from colleges of Hubli, Dharwad, Belgaum, Bagalkot, Mysore, Tumkur, Lakshmeshwar and Halyal.

Visiting academicians from Hyderabad, Delhi and Warangal had a visual technical treat viewing the products made and sold by students.

PUPA 2017 witnessed the collection of amazing technical products. LED cube with equalizer, which had dancing led patterns synchronized with the music beats gave an eye-catching show. Remote controlled Vacuum cleaner that cleans the surface as it slides over it. A remote controlled, 'Smart switch' that automatically switches off after a pre-set time, presented a new way of power saving. Bluetooth Speakers that give a mesmerizing audio effect opened a way of innovation in entertainment. Smart display, solar chargers, cost efficient power banks, Smart Gloves and many more technical innovations led the innovation extravaganza.
