70. Microcontroller based Embedded System Design

Faculty Development Programme On Microcontroller based Embedded System Design

A intense faculty development programme for reinforcing learning and practice.

A thorough understanding and working knowledge of design, implementation and analysis of Embedded System, which equips the faculty and students with the foundation, techniques, methodologies and skillsets, along with relevant hands-on.

Overview of the Workshop:

- Interpret, represent and process embedded systems.
- Thorough understanding of embedded system design.
- Ability to design & analyze embedded systems.
- Practical implementation issues such as computational complexity, hardware resource limitations as well as cost of embedded systems and processors.

The goal of workshop is to meet following objectives,

- To motivate faculty and students to involve in research activities.

About the University

Established in 1947, BVBCET has achieved an enviable status due to a strong emphasis on academic and technical excellence. Spread over a luxurious 50 acres, the picturesque campus comprises of various buildings with striking architecture. A constant endeavour to keep abreast with technology has resulted in excellent state-of-the-art infrastructure that supplements every engineering discipline.

Currently college offers 12 UG and 8 PG programs affiliated Visvesvaraya Technological University, Belgaum and is recognized by AICTE, New Delhi and accredited by NBA.

About SoECE

Department was established in 1979 & is the pride of Karnataka. The graduates from this department are playing a vital role in the IT revolution and are instrumental in placing Karnataka on the global IT landscape.

The department offers Post Graduate programs in "Digital Electronics" and "VLSI Design and Embedded System". Active engagement of faculty in research has led to recognition of department as a research center by the University.

E&C students are placed in major industries such as IBM, Motorola, Siemens, Alcatel, Intel, Microsoft, Bosch, KPIT etc.

Sankalp semiconductors Pvt. Ltd. is housed in our campus which mentors the staff and students in the area of Analog and Mixed signal design.

The department is working with following industries which have given considerable input in the design of the curriculum in Automotive Electronics, VLSI, Communication and Networking; Robert Bosch, KPIT, Sankalp Semiconductor, ARM India Ltd., Juniper Network, CISCO.
