FACULTY DEVELOPMENT PROGRAM ON ENGINEERING EXPLORATION COURSE

ABOUT THE WORKSHOP

Application closes on April 20th, 2018

This workshop is aimed at empowering faculty members of engineering institutions in designing student centered freshman engineering course that helps students explore and understand what engineering, engineering problem solving, engineering design process, multi-disciplinary skills, team work and collaboration is. It will be led by a team of experts from KLE Technological University who have been involved in designing such courses and research in engineering education. The workshop follows active, collaborative and experiential learning pedagogies.

At the end of the workshop each team would be able to carry the content, delivery details, resource procurement plan and deployment schedule of Engineering Exploration course for implementation in their respective institution.

The workshop is recognized by IESA – NETRA, the national initiative on ESDM skill development. All the participants will be getting certificate from Electronics Sector Skills Council of India (ESSCI).

WORKSHOP DATES: MAY 14-18,2018 (MONDAY – FRIDAY)

WORKSHOP DETAILS

Who can apply?

A team of 03-05 faculty members from AICTE recognized Engineering Institution offering undergraduate degree in engineering. The team shall consist of at least one member each from mechanical, electronics and computer science disciplines.

Apply using the link: https://goo.gl/forms/QYXqa7Q0hJ7qQASy1

Registration Fees and Accommodation

Rs. 10,000/- per participant + Taxes. Includes course content, lunch and tea /

We encourage on campus stay for participants. Limited accommodation available on campus on twin sharing basis. Rs.2500/- per person for five days. Includes breakfast and dinner.

Hosts:

CENTRE FOR ENGINEERING EDUCATION RESEARCH

ABOUT ENGINEERING EXPLORATION COURSE

The first year course — "Engineering Exploration" is an unique innovation born in the educational ecosystem of KLE Tech. This is a co-designed and co-taught course that focuses on problem solving, engineering design, multi-disciplinary skills, data analysis and acquisition, ethics and sustainability. It follows PBL pedagogy and students work in teams to solve identified problems through the entire semester

This course is recognized by IESA NETRA as a foundation course for its partner institutions

IESA – NETRA Master Trainers Workshop on Engineering Exploration Course

Centre for Engineering Education Research, KLE Tech., Hubballi, India

Master Trainers Workshop on Engineering Exploration-2

India Electronics and Semiconductors association is promoting Electronics System Design and Manufacturing and entrepreneurship in India through select educational institutes and universities in India. This is being pursued through NETRA (National ESDM Training and Research Academy) which has been created for this aforementioned purpose.

As a part of this program, MoU has been signed between IESA-NETRA and CEER, KLE Tech to take Engineering Exploration to develop ESDM skills in select universities / engineering colleges in India. This collaboration covers:-

- 1. Sharing of curriculum content with select institutes
- 2. Empowering faculty members through workshops
- 3. Mentoring to create a required learning environment in these institutes
- 4. Periodic review and impact assessment

This collaboration signed during September 2017 is for a three-year period. Master Trainers Workshop on Engineering Exploration was conducted during 2018 the details of which are shown in table below.

The workshop was conducted by the lead designers of the course Engineering Exploration:

- Dr. Gopalkrishna Joshi, Director, Centre for Engineering Education Research, KLE Tech.
- Ms. Preethi Baligar, Assistant Professor, Centre for Engineering Education Research, KLE Tech.
- Mr. Sanjeev Kavale, Assistant Professor, School of Mechanical Engineering, KLE Tech.
- Mr. Kaushik M, Assistant Professor, School of Electronics and Communication Engineering, KLE Tech.

The objectives of the workshop was to

- 1. Frame the course structure, assessment and evaluation plans
- 2. Interpret the context of each module in the engineering profession
- 3. Identify the concepts related to the module
- 4. Design content and activities related to the each of the identified concepts
- 5. Identify resources for activities
- 6. Develop worksheet/s to structure student learning
- 7. Formulate rubrics for assessment of activity/ies

IESA – NETRA Master Trainers Workshop on Engineering Exploration Course

Centre for Engineering Education Research, KLE Tech., Hubballi, India

As of date, a number of institutes in India have started Engineering Exploration course.

Table Master Trainers workshop for Engineering Exploration conducted during 2017-2018
