

### Faculty-Conclave 2018-2019

Faculty Conclave is an annual event that summarises the efforts put in by faculty members in providing quality engineering education to students of KLE Technological University.

Faculty Conclave is a celebration which showcases and shares innovations in engineering education done by faculty in the previous academic year. The platform offers an opportunity to learn from each other. Increased faculty participation and improvement in the quality of discussions are observed in the conclave which has contributed to a culture of discussion. This event is a milestone in our journey.

This year's conclave is organised on August 02-03 and has a total of 25 papers contributed by 70 faculty members. The number of unique authors is 44.

The faculty profiles cut across ages and also departmental boundaries. There are new contributors as well along with regular contributors. The focus of the academic year was PBL and we see contributions through PBL experimentation as

well.
